THE LEDGER!

VICE-PRESIDENT STEVENSON made a speech at Streator, Ill., in which he said that the Sugar Trust had gone to the wall, and that "sugar would be cheaper than in twenty years." THE LEDGER claims to be just as good at guessing as the Vice-President, and it will be him if a stick of molasses candy that sugar will not be permanently as cheap under the Democratic Tariff as it was under the McKinley Tariff.

AFTER all, it doesn't appear that the new Democratic Tariff Bill is likely open to us the "markets of the world." Quite the reverse. For since the German Ambassador at Washington has filed a protest against the discrimination he alleges is made against German beet sugar, the Austrian Minister has intimated that his country will follow suit.

Spain is seeking through her Minister to secure a new treaty by which Cuban sugar will gain special advantages.

Under these circumstances it is believed that the President, when he comes to review our foreign relations in his annual message to Congress, may call the attention of Congress to the protests of Germany and other countries, and the desirability of modifying the Tariff to some extent.

An official of the Agricultural Department says that German retaliation probably would be disastrous on the export trade from the United States to Germany. He pointed out that under the existing treaty American meat products, live stock and "The American Hog" had been given a market in Germany, after years of effort in that direction.

Last year the export of meat products alone reached approximately 13,000,000 pounds, an increase of 300 per cent. from the year previous. A similar advance had been made in our export of lard and breakfasts. Last year American flour sold in Berlin for the first time, in competition with Hungarian flour. Corn meal, wheat and some rye have also been exported under the strict arrangement.

For this reason officials of the Agricultural Department hope that legislation may be had that will insure a maintenance of our present commercial

relations with Germany. Meanwhile nothing can be done to change the status of sugars from bounty export countries until Congress meets.

The one thing that democrats persist in lying about is that a Tariff on foreign goods brought to America prevents us from shipping American goods to foreign markets—the "markets of the world," if you please. If any one is fool enough to believe such rot, perhaps the German-American tangle which the new Democratic Tariff has developed may scratch the scales out of his eyes.

OUR cherished friend, the Editor of The Bulletin, has been "prating" a good deal about the price of cotton. Of course, THE LEDGER will not attempt to say that Br'er MARSH isn't thoroughly posted on the subject; but there is before us a copy of The New Orleans Picayune, which may know a little bit about cotton, and in it we find the following:

HON. GEORGE W. HARPER, under the communication over his own signature in The Raymond Gazette, gives the following interesting historical facts:

"Cotton now sells in Raymond at a very low figure. The rate is somewhere between 5 and 6 cents, and frequently the remark is made in my presence, 'never before was cotton so low as now.' This is a mistake. The first bale of cotton I ever witnessed sold in Raymond was in 1814, (just fifty years ago,) and it sold at the price prevailing at the period. The cotton was raised in the Delta, and then every acre of land cultivated in this country produced its bales, and every hand that went to that field produced ten to fifteen bales. Corn then sold at 25 cents per bushel, home-made meat at 4 cents, potatoes at 25 cents, meal at 40 cents, flour at \$8, etc., and our taxes, state and county, were about one-fourth of the amount we now pay."

"W. L. SHARKEY, W. A. LEAKE, P. W. TOMKINS, AMOS R. JOHNSON and PATRICK HENRY were then the great favorites of the White party in this section of the state, while H. S. FOOTE, A. G. BROWN, and others were at the head of the Democratic party."

A DECISION

That Affects Veterans Who
Served in the Gunboat Service.

Commodore Foote's Marine Crews to
Loose Their Pensions.

After the dependent Pension Act Was
Passed Gunboat Veterans Put in Application
to Have Their Claims for Pensions
Now Decided Not Good.

WASHINGTON, Oct. 16.—Old river men will be surprised to learn that the pension office has ruled out of the benefits of what is known as the dependent pension act those veterans who served in the gunboat flotilla crews. This ruling applies as well to the ram fleet and the iron-clad brigade.

There were with Commodore Foote in the fresh-water naval service on the Mississippi and other western and southern rivers thousands of men.

Survivors are scattered throughout the country, and the pension office has decided that the gunboat service was not of sufficient importance and authorized the use of so much of the regular annual appropriation as is in the wisdom of the chief of the bureau might be necessary to properly carry out this investigation.

This inquiry involved a study of the whole modern industrial system and a phase of the question in which the workmanship of the country will be intensely interested.

Others are still to be decided.

Another inquiry ordered by congress, the work of which is now being planned, is the one concerning the gunboats. This one, too, will involve a study of the whole modern industrial system and a phase of the question in which the workmanship of the country will be intensely interested.

Another inquiry will take in the most interesting field of the gunboats.

Necessarily it involves a study of all branches of our national industry in which women are now employed, or for which they are adapted; the ascertainment of facts going to show where and how they are employed and the capacity of a woman to contest for a livelihood in the industrial world and her earning capacity.

SOUTHERN ROAD

Now Under the Control of the C. H. & D.

CINCINNATI, Oct. 16.—The much anticipated annual election of the Cincinnati Southern road was held Monday.

"But," asked Capt. Duble, "these men who served with Foote have been recognized under former laws as entitled to pensions, and they are drawing pensions to-day for war and injuries received in this identical service which you now say is not pensionable. What are you going to do with such cases?"

"We are stopping their pensions as fast as we can to their cases," was the reply of the official representing the pension office.

Capt. Duble says that congress will undoubtedly take up the matter and rectify such gross injustice to the men who served with Foote. He says this is the first time in ten years that he has been allowed to shut out the gunboat veterans. He characterizes it as the most unfriendly act the pension office has shown in the interpretation of the dependent law.

The case is now printed ticketed and will be sent to the nine members selected by the C. H. & D. contingent, and Mr. John Greenough, of New York, presented names of nine other gentlemen to be selected for the Southern railway.

He says that the Southern railway selected by the Southern railway-Drexel & Morgan party, who have ever since they became possessed of the Alabama Great Southern road, been endeavoring to gain control of the N. O. & W. and that in this regard have offered \$100,000 more than they paid for the majority of the Cincinnati extension bonds to the C. H. & D. syndicate for the Cincinnati Southern, but the C. H. & D. people remained firm in their determination to own the Southern and won.

GULF STORMS

To Be Forecast by an Extended Signal Service.

WASHTON, Oct. 16.—The work of the weather bureau in reporting the rise and progress of the hurricane that swept up the Atlantic coast a short time ago, and the consequent saving of hundreds of thousands of dollars worth of shipping and untold lives, and the immediate return of the bureau to the gulf side of the approach of the hurricane, has drawn attention to the need of an extension of the signal service system down the gulf coast to Yucatan. The weather bureau notes that there are many more of these disastrous storms arising in the Caribbean sea, or the Bay of Yucatan, and comes sweeping down on the coast of Louisiana, Texas, Alabama and other southern states when they are most dangerous.

The gulf storms are to be forecast by the extended signal service, and those interested in shipping notified in advance.

LABOR'S TRIALS.

WATER, Machinery and Female Employees to Be Investigated by the Government.

WASHINGTON, Oct. 16.—The bureau of labor is to make a special investigation bearing upon economic questions, that will be as important in their results as anything undertaken by this department since its organization. The work furthest advanced is an investigation of the strike during the last seven years, the volume being intended as a supplement to a report made on the labor troubles of the seven years preceding.

Although this work covers a period of seven years, the most important part of that time occurred recently at Homestead and around Chicago. Nothing but absolute facts will be dealt with, and will incorporate such data as the number of men who were injured, the amount of wages lost, the loss of employers, the cause of the various strikes, etc.

Another inquiry ordered by congress, the work of which is now being planned, is the one concerning the gunboats. This one, too, will involve a study of the whole modern industrial system and a phase of the question in which the workmanship of the country will be intensely interested.

Another inquiry will take in the most interesting field of the gunboats. Necessarily it involves a study of all branches of our national industry in which women are now employed, or for which they are adapted; the ascertainment of facts going to show where and how they are employed and the capacity of a woman to contest for a livelihood in the industrial world and her earning capacity.

SOUTHERN ROAD

Now Under the Control of the C. H. & D.

CINCINNATI, Oct. 16.—The much anticipated annual election of the Cincinnati Southern road was held Monday. At last the question as to who shall control its final destinies has been decided. The election was held on the fifth floor of the Odd Fellows' temple, where the general offices of the C. N. O. & T. railroad are situated. The balloting took place in the large engineer's office, where were gathered stockholders, railroad men, lawyers and the trustees of the road.

There were 1,100 printed tickets issued by the nine men selected by the C. H. & D. contingent, and Mr. John Greenough, of New York, presented names of nine other gentlemen to be selected for the Cincinnati Southern railway-Drexel & Morgan party, who have ever since they became possessed of the Alabama Great Southern road, been endeavoring to gain control of the N. O. & W. and that in this regard have offered \$100,000 more than they paid for the majority of the Cincinnati extension bonds to the C. H. & D. syndicate for the Cincinnati Southern, but the C. H. & D. people remained firm in their determination to own the Southern and won.

LYNCH LAW.

A Negro Taken From the Prisoner Ky., Jail and Hanged.

At Rockport, Ind., Robert Burr Shoots and Kills Arthur Williamson.

Burr, Who is of an Aristocratic Family, Danger of Lynching—A Negro Who Criminally Assisted a White Woman May Be Hanged at London, O.

PRINCETON, Ky., Oct. 16.—Willis Griffey, colored, who outraged a woman, and who was brought here two weeks ago from Christian county for safe keeping, was taken from the county jail Saturday morning and hanged in two miles south of town.

ROCKPORT, Ind., Oct. 16.—Sunday night at 10 o'clock Robert Burr shot and killed Arthur Williamson. The two men are about 25 years old. They left a saloon together, and after walking a mile or two, the negro tried to settle their trouble on the spot, and made a move to draw a weapon, when Burr drew a revolver and shot Williamson in the left eye, the ball going through his head and coming out behind the right ear. He was instantly killed.

Williamson was an engineer on the L. & St. L. R. R., and leaves a family.

He had worked hard to pay off a mortgage on his father's home, and recently sold it and presented it to his mother, nicely furnished. Burr is a member of an aristocratic family.

Both are well known. Burr is in jail and is in danger of being lynched.

The trouble was between the colored man and his wife, who had separated, and she was in Owensboro, Ky. Burr's family claim to be descendants of Aaron Burr.

Williamson was unarmed when picked up.

LORPON, Oct. 16.—The colored

man who criminally assaulted Mrs. Boyd, near Parrot's station, last week, was tracked by Chief McClelland and Detective Caldwell, of Washington, D. C., and captured in the mountains yesterday. He will be brought here Tuesday. Excitement is running high, and it would not be surprising if the brute is swung from a tree limb.

A Woman's Dreadful Fate.

ZANESVILLE, O., Oct. 16.—Mrs. W. L. Albrecht, residing near Spratt's eighteen miles from the city, met a terrible death Sunday evening. She was riding horseback and the animal became frightened when about a mile from home. Walker to pay over two years ago.

SEVEN SHOT.

A Kentucky Festival Broke Up by a Terrible Riot—Several Deaths.

NICOMACHEVILLE, Ky., Oct. 16.—A thrilling battle in which 30 or 40 men were engaged, took place Saturday night between 11 and 12 o'clock at Nicomacheville. A colored festival was being held at the house of Joe Gentry, when about 11 o'clock a party composed of colored and white men and boys, among whom were Dick Bailey, Dutchy, and Sim Lee, colored, surrounded the house and began firing into the building with shotguns and pistols. The party inside responded.

For twenty or thirty minutes the air was bright with the flash of pistol and fare of blade. At the end of that time both sides beat themselves to unknown, carrying with them more ammunition. Among those who were more skillfully shot were Wm. Wilson, James Robb, Joe Gentry, John Thomas, Will Walters and Bob Williams (colored) and Will Viehl (white). Some of the white men were really good shots, but most of the colored did little harm for the cover of Wm. Wilson and Will Viehl, while others of the wounded may also die. The only cause assigned for the difficulty is that the attacking parties were drunk.

The Story of Dr. Von Schmidt, the German Traveler—Dispatches Received From the Russian Capital in Sympathetic Ink and a Secret Code.

MINNEAPOLIS, Minn., Oct. 16.—Has the czar of all the Russians been skillfully poisoned and slowly put to death by scientific means in the hands of the Germans? Dr. George T. Clegg, of Minneapolis, who is a student of the secret code, has just received secret dispatches from St. Petersburg, which throws a strong light on the crisis in European politics caused by the imperialist war in the east.
